Please Read and agree to The Safe Seed Pledge:

Agriculture and seeds provide the basis upon which our lives depend. We must protect this foundation as a safe and genetically stable source for future generations. For the benefit of all farmers, gardeners, and consumers who want an alternative, I promise that I do not knowingly share, or trade genetically engineered ("GMO") seeds with our seed library.

Additionally, as a member of the Seed Library, I promise to grow plants and save seeds according to best practices to ensure that I return viable seed that will produce plants true to the variety I label them to be.
